Place Value

Complete the 3 Place Value questions at your level.

Money

Watch the videos about decimal place value and partition the money amounts using a decimal place value chart.

Subtraction Word Problem

Read the 'Word Problem Strategy Sheet' then choose your level and complete the subtraction word problem using 2 strategies.

Problems

Complete today's questions.

General

Complete 20 mins on Prodigy

Measurement & Geometry 37

Grid 1: determine the coordinates for each picture.

Grid 2: use the coordinates to work out which letter is in that position. Remember the first coordinate is along the bottom row and the second one is going up the side.

Statistics & Probability 11

Answer all questions carefully.

1. Spinner: Use the spinner picture to work out the answers. What are the chances of it landing on that colour e.g. 2 out of 7.

2. Dice: There are 6 sides to a dice so the chances of it landing on a 3 are 1 out of 6.

3. Array: Look at the array and the number of different shapes. What is the chance of selecting a heart shape?

Problems

Complete today's questions

General

Complete 20 mins on Prodigy

- have an afternoon nap
- play with your favourite toy
- do some drawing or colouring in
- play with the dog and teach it a new trick
- make a bowling alley - set up a bowling "lane" with some chalk or tape and use plastic bottles or cups for pins. Use any type of ball to bowl, attempting to knock down as many pins as possible. Keep track of the score, or simply aim to knock them all down in one turn.
- play a card game or build a card tower
- play with Lego or other construction blocks/materials

Measurement & Geometry

Complete the 'Equal Arm Balance' worksheet.

Patterns and Algebra

Complete the 'Ordering 4 digit numbers' worksheet. Follow the directions and record the numbers on the number line. After, answer the true or false questions about the number line.

Mentals

Complete Thursday's questions

General

Complete 20 mins on Prodigy

Times Tables Practice 3x

Write out and practice your 3 x tables. Check your answers with the Times Tables Answers from Week 1.

Multiplication & Division

Divide by 3

Equivalent Number Sentences

Use strategies to work out your answers to the equivalent sentence problem.

Mentals

Complete Friday's questions

General

Complete 20 mins on Prodigy

History

Complete 'What was the nature of contact between Pemulwuy and the early British colonists?' worksheet.

Dance

This clip will teach you a new dance. It takes about 23 mins so you can learn a little bit each day or learn the whole dance to practice each day.

**Bounce Back**

Carefully watch the story 'The Tenth Good Thing About Barney'.

<https://www.youtube.com/watch?v=yxqU61q27V8&t=167s>

Then discuss these questions with a family member:

What does positive mean to you?

How was the character in the story positive?

How have you been positive in the past?

Visual Arts

Finish the picture drawings. Look at the attached sheet for instructions and examples.

Dance

Continue watching this clip from yesterday. It takes about 23 mins so you can learn a little bit each day or if you learnt the whole dance yesterday, forward the clip to the 19 minute mark and dance away. Have a great dance session.

**Bounce Back**

Watch the video below with Mr Brown. Then complete the 'Positive Tracker Worksheet'. Discuss your answers with your family.

<https://www.youtube.com/watch?v=eMTiVUc8pOA>

- play 'Keep it Up!' with your family – in this game keep a balloon, beach ball or other ball from hitting the ground without holding onto it. See how long you can keep the balloon/ball up. Make sure you have plenty of room to move around
- have a warm shower or bubble bath and snuggle under a blanket in your pj's and sip hot chocolate

**PD**

Complete the worksheet "Lesson 3: Personal Safety."

Dance

Continue watching this clip from Tuesday. It takes about 23 mins so you can learn a little bit each day or if you learnt the whole dance, forward the clip to the 19 minute mark and dance away. Have a great dance session

**Well-Being**

Complete the 'Worry Jar Activity' in your booklet.

Science

Year 3 – Read the information and complete the activities on the 'Shapes and sizes' worksheet to learn about how the size of something can be difficult to see and compare depending on the distance it is from us.

Music

Ready for a challenge? Try out your body percussion skills with this song 'Better When I'm dancing'.

URL: <https://video.link/w/FJ2Cc>

Well-Being

Complete the 'Ways to feel Better Activity' in your booklet.

ECHIDNA

Echidna, is a type of [mammal](#) that has sharp spines and lays [eggs](#). Along with the [platypus](#), echidnas are the only surviving *monotremes*. Monotremes are mammals that lay eggs. All other mammals give birth to live young. There are four *species* (kinds) of echidna. Three species of long-beaked echidna live in New Guinea and the Indonesian island of [Salawati](#). There is one species of short-beaked echidna. It lives in both New Guinea and Australia, including Tasmania and [a number of](#) offshore islands. Echidnas live in a wide range of habitats such as tropical forests, snowy alpine areas, and hot, dry deserts.

Echidnas have sharp spines on their back and sides that protect them from predators. They have light brown to black fur. Echidnas from cold areas have more fur and fewer spines than echidnas from warmer environments. Echidnas have exceptionally strong claws. They use their claws to bury themselves into the ground for protection against predators. Echidnas sometimes dig burrows to sleep in. They may also sleep in hollow logs or rocky crevices.

The echidna digs into the soil and termite mounds to find food. An echidna's nostrils and mouth are at the end of a long, thin snout. It has no teeth. It crushes its food with horny plates at the base of the tongue and on the roof of the mouth. The echidna has a long tongue and produces sticky saliva that it uses to lick up *invertebrates* (animals without backbones) such as ants and termites. The echidna measures over 12 inches ([30 centimeters](#)) long and weighs from 4 to 35 pounds (2 to 16 kilograms).

Female echidnas lay one egg a year. The egg has a tough, leathery shell. It hatches after about 10 days in a pouch that forms on the female's belly. The young echidna remains in the pouch for several weeks and feeds on the mother's milk. When the young [begins](#) to develop spines, the mother deposits it in a burrow until it is about six or seven months old, when it can feed on its own. Echidnas have a low body temperature and use little energy. During winter, echidnas enter hibernation. They become cold and remain inactive for days to months. They can also become inactive when their environment is disturbed and food is hard to find, such as after a bushfire. Echidnas may live up to 45 years in the wild and longer in captivity.

Find the Main Idea

Name: _____

Echidna

1. What is the main idea of this text?

2. What are the three details that support the main idea?

Detail 1: _____

Detail 2: _____

Detail 3: _____

3. Carefully read the text. Underline any keywords which are repeated or seem important. Write them down.

SENTENCE A DAY – Compound Sentences

Using a dice, roll and write a compound sentence using a conjunction:

	Write a sentence with: because
	Write a sentence with: and
	Write a sentence with: with
	Write a sentence with: so
	Write a sentence with: if
	Write a sentence with: when

2. \$1.55

3. \$36.70

4. \$148.39

5. \$2591.95

Week 3 – Questions

Monday

The school is holding a fundraising dinner. 4 families would like 12 tickets each. How many seats do they need to fit all their guests at a table?

Tuesday

A hardware shop has 9 ads each hour on one TV station. How many ads get shown every 4 hours?

Name: _____ / Class: _____ / Date: _____

What was the nature of contact between Pemulwuy and the early British colonists?

In an earlier lesson, we learned about what life was like in the new colony for the First Fleeters. But what was it like for the Aboriginal People – The Eora? Today we are going to look at the life of Eora man, **Pemulwuy**.

Use the information sheet on Pemulwuy to help you answer the following questions:

When and where was Pemulwuy born?

/ What clan did he belong to?

Was Pemulwuy interested in building relationships with the British?

How did Pemulwuy retaliate?

Why did Pemulwuy fight the British colonists?

Who did Pemulwuy attack with a spear and when did it happen?

How and when did Pemulwuy die?

How do you think Pemulwuy felt about his people's traditional lands being taken?

Name: _____ / Class: _____ / Date: _____

Information Sheet: Pemulwuy

Pemulwuy was an Aboriginal warrior who fought against the European settlers in Australia. He was a middle-aged Aboriginal man when the First Fleet arrived in 1788. His name means 'earth: man of earth' in the Dhurag language.

A statue of Pemulwuy

When was Pemulwuy born?

- Pemulwuy was born in 1750. He was born near Botany Bay, on the northern side of the Georges River, New South Wales.

What clan did Pemulwuy belong to?

- Pemulwuy was a warrior who belonged to the Bidjigal clan of the Eora people.

Was Pemulwuy interested in building friendships with the British colonists?

- No, he saw the damage done to Aboriginal society by the colonists and did not want to befriend them like **Bennelong**, had done.

Why did Pemulwuy fight the British Colonists?

- Pemulwuy had become increasingly concerned about the new diseases that were killing many of his people and how the British were taking his people's traditional lands.

Who did Pemulwuy attack with a spear?

- On 10 December 1790, Pemulwuy attacked John McIntyre, Governor Phillip's gamekeeper with a spear. He later died of his wounds in January 1791.

How did Pemulwuy retaliate against the British?

- Pemulwuy retaliated against the British by spearing cattle, burning huts, destroying crops and attacking settlers.

What towns did Pemulwuy lead raids on?

- From 1792, Pemulwuy led raids on Prospect, Toongabbie, Georges River, Parramatta, Brickfield Hill and the Hawkesbury River.

When was Pemulwuy injured?

- During the battle of Parramatta in March 1797, Pemulwuy was severely wounded when he was shot and was taken to hospital with wounds to both his head and body. He later recovered from his wounds and escaped from the hospital wearing leg irons.

How and when did Pemulwuy die?

- The Governor offered a bounty for anyone who could kill or capture Pemulwuy. Chasing the reward, a British sailor named Henry Hacking shot and killed Pemulwuy on about 1 June 1802.

TUESDAY

Informative Paragraph — Planning Template

Introductory sentence: Introduce the subject using a clear topic sentence.

--

Description: State facts about the subject in a logical order.

Fact 1	Fact 2	Fact 3
---------------	---------------	---------------

Concluding sentence: Conclude with a statement about the subject.

--

NOUNS, VERBS, ADJECTIVES – Writing Compound Sentences

Use the word bank for nouns, verbs and adjectives and write at least 5 compound sentences. Don't forget to look back at the F-A-N-B-O-Y-S resources.

Noun	Adjective	Noun	Verb
kitten	enormous	house	eating
koala	friendly	market	talking
echidna	creative	garden	walking
spider	large	shops	running
ant	small	zoo	swimming
fox	tiny	school	scurrying
mouse	happy	America	trotting
gorilla	cheerful	North Pole	falling
monkey	sad	boat	flying
horse	miserable	island	crawling
rat	hungry	sports field	tip-toeing
guinea pig	naughty	Op. shop	buying

1. Our tiny friendly kitten was eating in the garden while I was playing at school.

2.

3.

4.

5.

Use the grid below to determine the coordinates where each figure is located.

- 1) Star _____
- 2) Lightning _____
- 3) Circle _____
- 4) Heart _____
- 5) Cross _____
- 6) Triangle _____
- 7) Moon _____
- 8) Square _____
- 9) Diamond _____
- 10) Music Note _____

Determine which letter is at each coordinate using the grid below.

- 11) (2,0) _____
- 12) (0,5) _____
- 13) (9,6) _____
- 14) (6,0) _____
- 15) (6,6) _____
- 16) (2,1) _____
- 17) (1,7) _____
- 18) (0,0) _____
- 19) (3,5) _____
- 20) (2,9) _____

Probability

Use each diagram to solve the problems.

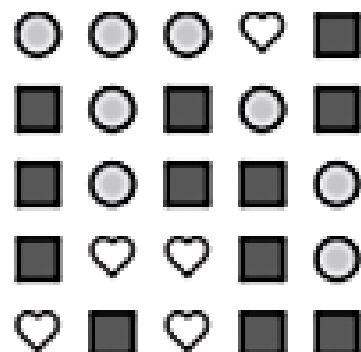

- 1) How many pieces are there total in the spinner?
- 2) If you spun the spinner 1 time, what is the probability it would land on a gray piece?
- 3) If you spun the spinner 1 time, what is the probability it would land on a black piece?
- 4) If you spun the spinner 1 time, what is the probability it would land on a white piece?
- 5) If you spun the spinner 1 time, what is the probability of landing on either a white piece or a black piece?

- 6) If you were to roll the dice one time what is the probability it will land on a 3?
- 7) If you were to roll the dice one time what is the probability it will NOT land on a 2?
- 8) If you were to roll the dice one time, what is the probability of it landing on an even number?

- 9) How many shapes are there total in the array?

- 10) If you were to select 1 shape at random from the array, what is the probability it will be a circle?
- 11) If you were to select 1 shape at random from the array, what shape do you have the greatest probability of selecting?
- 12) Which shape has a 32% chance (8 out of 25) of being selected?

Finish the Picture Drawings

1. Look through magazines, newspapers or google images (with your parent's permission to use the internet) to find a picture that inspires you.
2. Cut or print it out.
3. Choose a section of the picture and cut it out.
4. Paste in on a piece of paper.
5. Your job is to finish the picture by adding an interesting background. You can look at the rest of the picture and try to copy it or create your own background to finish the picture.

Look at some of the examples to give you an idea and gain some inspiration.

What Would a Positive Tracker Think Here?

Name: _____

Write in the blank balloon what the children would say to themselves if they were trying to be more positive.

**WELL-BEING

Fact 2 (example Habitat)

Fact 3 (example Food/Diet)

Concluding Sentence

SENTENCE A DAY – Complex Sentences 1

Directions: Connect three ovals to make complete complex sentences. The first one is done for you.

The student	with the red handle	who likes <u>math</u>	finished early.
The guitar	that is barking		
The tree	where he lives		
The dog	with the yellow leaves		
The house	with the definitions		
The book			

Simple, Compound, and Complex

Tip: FANBOYS
For, and, nor, but, or, yet, so

Tip: AAAWWUBBIS words
As, Although, After, While, When,
Unless, Because, Before, If, Since

Select simple, compound, or complex for each sentence below.

1. Do you want to go to the park?

2. While Max was at recess, he fell and hurt his knee.

3. Do you have a dog, or do you have a cat?

4. My mom packed me an apple for lunch.

5. My favorite subject is reading because I love good books.

6. Maria wanted to go to school, but she was sick.

7. I hope I do well on my test!

8. I feed my dog before I leave.

9. I woke up early, and I am dressed for school.

Equal Arm Balance

Today we will be creating an equal arm balance.

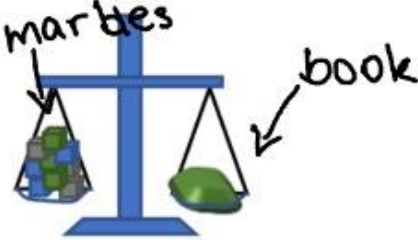

An equal arm balance is a way to compare the mass of 2 sides. Click on the link below or scan the QR code to access an example of how to make an equal arm balance.

URL: <https://youtu.be/FRtbekqsuZ8>

Find an object you have multiple of, for example: marbles, blocks, pebbles.

Measure the mass of an object, for example a book, with the above object. For example: the mass of 1 book equals 9 marbles.

Picture of Equal Arm Balance	The Object's mass using informal measurements
	A book equals 9 marbles.

Ordering 4 digit numbers

Yr3

T4 Wk3

Follow the directions to create an ordered number line on the empty number line below. While ordering the numbers, look at the place value to help you determine where the number goes on the number line. Then answer the questions below.

- Step 1: Record and mark the number 1368 near the centre of the number line.
- Step 2: Record and mark the number 1468.
- Step 3: Record and mark the number 1268.
- Step 4: Record and mark the number 1275.
- Step 5: Record and mark the number 1618.

True or false? Shade the correct answer.

- | | | | | |
|-----------------------------------|----------------------------------|------|----------------------------------|-------|
| (Q1) 1368 is greater than 1618. | <input checked="" type="radio"/> | true | <input type="radio"/> | false |
| (Q2) 1275 is less than 1618. | <input checked="" type="radio"/> | true | <input type="radio"/> | false |
| (Q3) 1268 is less than 1275. | <input checked="" type="radio"/> | true | <input type="radio"/> | false |
| (Q4) 1468 is greater than 1268. | <input checked="" type="radio"/> | true | <input type="radio"/> | false |
| (Q5) 1368 is the smallest number. | <input type="radio"/> | true | <input checked="" type="radio"/> | false |
| (Q6) 1368 is less than 1618. | <input type="radio"/> | true | <input checked="" type="radio"/> | false |
| (Q7) 1618 is the greatest number. | <input type="radio"/> | true | <input checked="" type="radio"/> | false |
| (Q8) 1468 is greater than 1368. | <input type="radio"/> | true | <input checked="" type="radio"/> | false |

Week 3 – Questions

Date: Thursday

1. $55 - 4 =$ _____

2. $85 + 12 =$ _____

3. $92 - 9 =$ _____

4. $27 \div 3 =$ _____

5. $50 \div 5 =$ _____

6. Write these numbers in order from smallest to largest:
1140, 4903, 6622, 8416. _____

7. Complete this counting pattern:

61, 64, 67, 70, _____, _____, _____

8. I bought 86 kites and was given 75 more kites. How many kites do I now have? _____

9. Share \$36 between 3 children. _____

10. 20 cents + \$1.00 = _____

11. Colour in a quarter of this shape:

12. Colour in a third of these circles.

13. 1 week = _____ days

14. How many faces does a cube have?

15. Which circle has the lowest chance of being selected? Black or white? _____

Date: Friday

1. $64 - 5 =$ _____

2. $47 + 74 =$ _____

3. $82 - 7 =$ _____

4. $55 \div 5 =$ _____

5. $25 \div 5 =$ _____

6. 6456 is an even number. True or false? _____

7. Complete this counting pattern:

63, 65, 67, 69, _____, _____, _____

8. I have 76 balls. Blake has some balls too. Together we have 110 balls. How many balls does Blake have? _____

9. Share \$6 between 3 children. _____

10. 50 cents + 10 cents + 20 cents = _____

11. Colour in an eighth of these triangles.

12. Colour in a third of these circles.

13. 1 fortnight = _____ days

14. How many faces does a cube have?

15. Which star has the lowest chance of being selected? Black or white? _____

Time: _____

Score: _____/15

Time: _____

Score: _____/15

Personal safety depends on the environment and the behaviour of yourself and others. Students need to take personal responsibility for their own safety and recognise situations where they need to follow rules. Accidents can happen but many are preventable.

1. Draw pictures to show the correct behaviour to make sure you are safe.

At school	Riding a bike	In the backyard
At the pool	In the car	At the park
In the classroom	At the shops	Near the road

2. Write three safety rules that your parents or guardians always tell you to follow.

CHALLENGE: Think of an accident that happened to you (or someone else).

On a separate paper:

- Describe what happened.
- Describe how the accident could have been prevented.

You will need

Your child may be worrying about a lot of things right now. Health, school, friends, family and more. They might ask you about their worries.

A Worry Jar is a place for your child to put their worries so they don't have to think about them all the time.

Find a jar or any container, and decorate it if you like. If you haven't got a spare jar, you can write or draw on the picture on the following page.

Help your child write their worries on pieces of paper. Fold them up and put them in the jar, and close the jar.

Choose 10-15 minutes a day (but not right before bed) for 'Worry Time'. Children can open the Worry Jar, look inside and worry as much as they want. They can read all the worries or focus on one or two. Have a timer to show that Worry Time is over. Close the jar to put their worries away.

At some point, your child may tell you that they've stopped worrying about something they've put in the jar, and they can tear up that worry and throw it away. Enjoy these times together!

Remember to discuss coping strategies with your child for the worries using the Golden Rules. You can use the 'Ways to Feel Better' sheet for ideas.

Golden Rules for Choosing a Good Solution

It makes me feel better

It doesn't hurt me or anyone else

My Worry Jar

Don't fill your head with worries, fill the jar instead

plunder a pirate

Informative Text Checklist

Structure

- My informative text begins with a general statement which introduces and classifies the subject.
- My informative text contains a series of factual paragraphs which describe the characteristics of the subject.
- My informative text ends with a concluding statement which sums up the information presented about the subject.

Language and Features

- I have tried to sound like an expert on the topic.
- I have used subject-specific, technical vocabulary.
- I have used present tense.
- I have used nouns and noun categories.

Week 3 Friday Singular vs Plural Nouns

A **singular noun** refers to one person, thing or group.
 A **plural noun** refers to more than one person, thing or group.

Rules for plurals:

<p style="text-align: center;">Add s:</p>  <p>For most nouns simply add s.</p> <p>Examples: ball – balls, cat – cats.</p>	<p style="text-align: center;">Add es:</p>  <p>For most nouns that end in ch, sh, s, ss, x, z, o add es.</p> <p>Examples: fox – foxes, dish – dishes.</p>	<p style="text-align: center;">Add ies:</p>  <p>For most nouns that end in a consonant + y drop the y and add ies.</p> <p>Examples: fly – flies, baby – babies.</p>	<p style="text-align: center;">Add ves:</p>  <p>For most nouns that end in f or fe add ves.</p> <p>Examples: knife – knives, leaf – leaves.</p>
--	--	---	--

Use different colours to match each singular noun to its plural.

See if you can work out which rule they are following. If they don't follow a rule, they are irregular.

<table border="1" style="width: 100%; border-collapse: collapse;"> <tr><td style="padding: 5px;">mouse</td><td style="padding: 5px;">box</td></tr> <tr><td style="padding: 5px;">wife</td><td style="padding: 5px;">scissors</td></tr> <tr><td style="padding: 5px;">foot</td><td style="padding: 5px;">handcuff</td></tr> <tr><td style="padding: 5px;">witch</td><td style="padding: 5px;">lolly</td></tr> </table>	mouse	box	wife	scissors	foot	handcuff	witch	lolly	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr><td style="padding: 5px;">scissors</td><td style="padding: 5px;">witches</td></tr> <tr><td style="padding: 5px;">lollies</td><td style="padding: 5px;">feet</td></tr> <tr><td style="padding: 5px;">wives</td><td style="padding: 5px;">mice</td></tr> <tr><td style="padding: 5px;">boxes</td><td style="padding: 5px;">handcuffs</td></tr> </table>	scissors	witches	lollies	feet	wives	mice	boxes	handcuffs
mouse	box																
wife	scissors																
foot	handcuff																
witch	lolly																
scissors	witches																
lollies	feet																
wives	mice																
boxes	handcuffs																

Make this set of singular nouns plural.

Underline any irregular plurals you can find (Hint: there are 6).

Shapes and sizes

The Sun, Earth and Moon are all spheres. The Sun is the largest object in the Solar System. It is gigantic compared with the Earth and the Earth is actually 4 times larger than the moon. Although the Moon is much smaller than the Sun, when viewed from the Earth, they appear to be about the same size in the sky because the Moon is much closer to the Earth than the Sun.

Extension Background Information: The distances between the major objects in the Solar System can be difficult to imagine because they are so large. Light, which is the fastest thing in the universe, takes about eight minutes to travel from the Sun to Earth, and just more than one second to travel between the Moon and Earth.

Activity

It is common to think that the Moon appears to be a similar (same size) to the Sun. However, this science activity will help you to find out more about the sizes and positions of the Sun, Earth and Moon.

Equipment: Large ball such as a basketball to represent the sun, a tennis ball or other small ball to represent the moon

Instructions:

Ask your family to do this with you — One of you will hold the tennis ball, while the other will hold the basketball. A third person will stand in front and be able to view both balls.

Imagine that the observing person is standing on the Earth and looking at the Sun and Moon. The person with the basketball will move backwards until the person viewing the balls observes that the basketball appears to be the same size as the tennis ball. Swap positions so that each person has a turn to be the observer. Discuss all of your observations and how this demonstrates the different sizes of the Sun and Moon in relation to Earth.

Learning Intention: This activity shows how two different-sized objects can appear to be the same size if they are at different distances from the observer (person looking at them).

Ways to feel better

Use this sheet to help your child to come up with ideas to feel better when they have difficult feelings.

Talk about a time when your child has had a difficult feeling – sad, angry, annoyed, jealous or scared. Discuss different things they do to help themselves feel better using the suggestions below as a prompt.

Ask children to choose their top three strategies, perhaps drawing or writing one we haven't thought of!

Keep this on display at home so when children have a difficult feeling they can help themselves to feel better.

 <p>Dance to your favourite song</p>	 <p>Have a drink of water</p>	 <p>Do some colouring</p>	 <p>Smell your favourite smell</p>	 <p>Hug a toy</p>
 <p>Think of a happy memory of your friends/family</p>	 <p>Think of the three best moments of the day</p>	 <p>Do five star jumps</p>	 <p>Ask for help</p>	 <p>Take some deep breaths</p>
 <p>Talk to a friend online</p>	 <p>Write down how you are feeling</p>	 <p>Think of a happy time</p>	 <p>Watch television</p>	 <p>Imagine your favourite place</p>
 <p>Think of three solutions for your problem</p>	 <p>Have a nap</p>	 <p>Say you're sorry</p>	 <p>Make a list of things you are good at</p>	 <p>Do a full body stretch</p>

Monday Problem Solving Answers

Week 3 Monday

Levelled subtraction word problems

2 digit	3 digit	4 digit	5 digit
$27 - 8 = 19$ Lola collected 19 cans. <i>Split Strategy</i> $20 - 0 = 20$ $7 - 8$ can't do so borrow 10 from above $17 - 8 = 9$ Then $10 + 9 = 19$	$274 - 168 = 106$ Lola collected 106 cans. <i>Split Strategy</i> $200 - 100 = 100$ $70 - 60 = 10$ $4 - 8$ can't do so borrow 10 from above $14 - 8 = 6$ Then $100 + 0 + 6 = 106$	$8274 - 3168 = 5106$ Lola collected 5106 cans. <i>Split Strategy</i> $8000 - 3000 = 5000$ $200 - 100 = 100$ $70 - 60 = 10$ $4 - 8$ can't do so borrow 10 from above $14 - 8 = 6$ Then $5000 + 100 + 0 + 6 = 5106$	$17684 - 4336 = 13348$ Lola collected 13348 cans. <i>Split Strategy</i> $17000 - 4000 = 13000$ $600 - 300 = 300$ $80 - 30 = 50$ $4 - 6$ can't do so borrow 10 from above $14 - 6 = 8$ Then $13000 + 300 + 40 + 8 = 13348$

The school will need 48 seats to fit all of their guests at the table.

History Answers

Answer Sheet

Name: _____ / Class: _____ / Date: _____

What was the nature of contact between Pemulwuy and the early British colonists?

In an earlier lesson, we learned about what life was like in the new colony for the First Fleeters. But what was it like for the Aboriginal People – The Eora? Today we are going to look at the life of Eora man, **Pemulwuy**.

Use the information sheet on Pemulwuy to help you answer the following questions:

When and where was Pemulwuy born?
/ What clan did he belong to?

Pemulwuy was born in 1750 near Botany Bay in New South Wales. He belonged to the Bidjigal clan.

Was Pemulwuy interested in building relationships with the British?

No. Pemulwuy saw the damage being done to Aboriginal society by the colonists and did not want to befriend them.

How did Pemulwuy retaliate?

Pemulwuy retaliated against the British by spearing cattle, burning huts, destroying crops and attacking settlers.

Why did Pemulwuy fight the British colonists?

Pemulwuy was concerned about the new diseases killing his people and the loss of their traditional lands.

Who did Pemulwuy attack with a spear and when did it happen?

Pemulwuy attacked John McIntyre with a spear 10 December 1790.

How and when did Pemulwuy die?

The Governor offered a bounty for anyone who could kill or capture Pemulwuy. Chasing the reward, a British sailor named Henry Hacking shot and killed Pemulwuy on or about 1 June 1802.

How do you think Pemulwuy felt about his people's traditional lands being taken?
